

Infants and toddlers learn best by touching, smelling, seeing, and tasting the things they find in their environment. They are explorers because the world is new to them. In this training participants will learn how to involve children in experiences that directly support their emerging awareness of others, emergent language, motor skills, and social/emotional development. CEUs are available with this training.

September 15, 2018  
9:00 a.m. to 12:00 p.m.

Training provided by Pasco Hernando ELC, Senior Training Specialist Dawn Espinoza
