TAKING THE STING OUT OF BITING

Register online at www.phelc.org

CEUs will be available for this training

**Saturday, September 29, 2018
ELC Spring Hill Office
1 PM – 4 PM**

Biting is an upsetting toddler behavior that can result from feelings of frustration, overstimulation, anger, hunger, and pain related to teething. Join us as we study “interventions” for biting incidents. Participants will discover the seven reasons for chronic biting behavior and design customized solutions to help stop and prevent this phenomenon.
