

**Staff-to-child ratio** is the number of children that an individual teacher is responsible for. To reflect the actual ratio, the “Teachers in Classroom” column should always be 1. For example, if you have 2 teachers with one class of 20, you should list 1 “Teacher in Classroom” with 10 “Children in Classroom” and a “Group Size” of 20. If you follow the state mandated ratios for a center or facility, please see the example below. You can omit the age groups you do not serve.

**Group size** is the maximum number of children, by age, that can be in a single classroom at any given time. If you follow the state mandated group sizes for a center or facility, please see the example below. You can omit the age groups you do not serve.

### Child Care Center Example

This example uses the state mandated minimum staff-to-child ratios and maximum group sizes permitted for centers.
